

Veterinary Technology Diploma Frequently Asked Questions

The Veterinary Technology Diploma program (VTEC) is now available in two formats: you can choose to study either full-time (in-person) or part-time (hybrid).

- < In the full-time in-person cohort, you'll graduate in just two years (4 semesters + practicum).
- < In the three-year (9 semester) part time hybrid cohort, almost all courses will be online during the Fall and Winter semesters (September to April). Each year, mostly during the summer semesters, you'll be on campus for 3 weeks for in-person condensed lab courses where you'll be taught the practical skills required to become a veterinary technologist. You will be required to work in a small animal or mixed Veterinary Hospital for at least 4 of the 9 semesters.

Q: Why are applications to the Fall 2025 part time hybrid stream currently closed?

A: In November 2024

A:

provincial veterinary technologist association. Once accepted you will be a

Q: Where do I get my exotic and large animal experience?

A: Students will complete their exotic and large animal essential skills during the condensed three week on-campus labs in the final semester of the program in the summer of the 3rd year of the program.
