

**M:** Course Objectives / Learning Outcomes

In this course the student will use the Douglas College Department of Psychiatric Nursing Curricular threads (wellness – illness continuum, Professional values, Professional caring and health care delivery system) and domains (person, environment, health, psychiatric nursing) to integrate knowledge, skills and attributes related to clinical procedures when caring for the person experiencing an episodic health challenge.

**N:** Course Content:

- neurological assessment
- urinary catheterization
- nasogastric insertion, maintenance and removal
- enterostomal therapy
